

Smart & Livable City Co., Ltd.

WHO WE ARE

Smart & Livable City Co., Ltd. (SLIC) is a consultancy firm dedicated to advancing smart and sustainable urban development. We are a team of experts in Smart & Livable City initiatives, offering specialized services in strategic consulting, project management, academic research, and capacity building through training and workshops.

Our mission is to transform cities into more livable, intelligent, and inclusive environments. We serve as a bridge between public institutions, private enterprises, and academic networks — both domestically and internationally — to drive collaborative solutions in urban innovation.

What we do

Project Consulting for Smart City Development

Strategic advisory and implementation for municipal and private sector projects focused on smart infrastructure and urban sustainability.

Research and Innovation Design

Development of data-driven solutions, policy frameworks, and prototypes for Smart & Livable City applications.

Professional Training & Capacity Building

Organizing workshops and training programs to upskill local authorities, community leaders, and professionals in sustainable city practices.

Public-Private-Academic Partnerships

Facilitating cooperation across government agencies (e.g., DEPA, PMU-A), universities, and corporate sectors to enhance project outcomes and scalability.

OUR STRENGTHS

ACADEMIC NETWORK

Collaborations with leading universities across Thailand and international institutions.

GLOBAL EXPERTISE

Access to a pool of specialists and researchers from around the world with hands-on experience in smart city planning and execution.

LOCALIZED INNOVATION

Solutions tailored to the socio-cultural and economic contexts of local communities.
